Objective

I am pursuing a development position in which I can work in a professional environment to design software while being able to communicate and learn from more experienced coworkers.

Employment

Software Developer	STS Group	May 2014 – Nov 2014
---------------------------	------------------	----------------------------

- Set up server room for web servers, as well as choosing and installing their hardware upgrades.
- Performed general server maintenance such as flashing a BIOS and setting up RAID arrays.
- Wrote script receive text content sent to an SMS shortcode on OpenMarket servers.

Network Engineer	Ser Technology	July 2015 – Dec 2015
-------------------------	-----------------------	-----------------------------

- Wrote network policies in compliance with FCRA requirements for SSAE 16 certification process.
- Patched and updated network servers and databases using GFI LanGuard management system.
- Managed DNS records for client businesses and their email campaigns using Webmin.

Education

Dallas, TX	University of Texas at Dallas	Aug 2013 – Dec 2015
B.S. in Computer Science	Graduation: December 2015	GPA: 3.495

Experience

- | | |
|---------------------|---|
| • Languages | Java; C++; C#; JavaScript; HTML5; CSS3; MySQL |
| • Technologies | AngularJS; Bootstrap; .NET 3.0; Git; VMWare |
| • Operating Systems | Windows NT; Ubuntu; Debian; CentOS |

Projects

- | | |
|-------------------------|--|
| Message Client | My partner and I developed the frontend for a message system using REST endpoints through Microsoft Azure. We created a browser application with AngularJS and Bootstrap while the rest of our team developed a backend with WebAPI and Entity Framework for data persistence and retrieval. |
| Personal Website | I created a personal website using GitHub Pages and Bootstrap and setup a domain name for the site. I designed the page using the smallest grid option possible in order to minimize complications on mobile devices. I limited the size and number of assets that I used in order to minimize the site's footprint. |

Memberships

- IEEE, Student Member
- Tau Sigma National Honors Society, UT Dallas
